

COMP1054 - IN CLASS LAB

Lab 1: Define Your Style (Rule)

Welcome to your first lab adventure in COMP1054! 🎉 In this activity, you'll start defining your style—both as a designer and in your CSS code. You'll practice breaking down the “anatomy” of a style rule, show off what you already know, and then publish your work to GitHub

1. Navigate to the Project Folder

- Go to Labs > Lab 1 in the COMP1054 GitHub repository.

2. Complete the Exercise

- Finish the Show What You Know activity.
- Open your CSS file and choose one style rule.
- Add comments to identify the selector, property, value, and declaration.

3. Submit Your Work

- Create a GitHub repository for your Lab 1 files.
- Commit and push your completed HTML & CSS code.

Learning Objectives:

C.L.O 5 - Explain the various components and syntax of a valid CSS rule

Assessment:

You will be assessed on the following:

	Not Quite	Good	Awesome
--	-----------	------	---------

Identifying Parts of a CSS Rule	Developer identifies only 1-2 components of a CSS rule, or confuses their meanings (e.g., mixes up property vs. value). (0 - 1 mark)	Developer correctly identifies most components (3 of 4), with only minor errors or unclear wording. (2 - 3 marks)	Developer correctly and clearly identifies all 4 components (selector, property, value, declaration) using accurate terminology. (4 - 5 marks)
--	--	---	--

CSS Challenge Due Date:

Tuesday, September 2nd @ 11:59pm

Lab Weight:

5% of final grade

Submission Details:

Please submit the following:

1. a link to your Github Repository

!important

Please ensure that any work you submit is your own unique and independent work. Work submitted that is found to be not your own unique, and independent work will be subjected to a grade of 0 and considered to be academic misconduct.
